Northtown Transit Center Station

Back To Stations

Northtown Transit Center Station

This station is the northern terminal for the F Line. It is one of several stations requiring minimal enhancement prior to the opening of the F Line. Improvements to the existing Northtown Transit Center were completed in 2022, including realignment of bus stops and vehicle circulation, new pedestrian infrastructure, new shelters with light and heat, a bus driver restroom facility, and NexTrip signs with real-time information. The F Line station at Northtown Transit Center will complement existing infrastructure with METRO branding and fare collection equipment.
