Robert Street Corridor

Red Rock Corridor

The 30-mile Red Rock Corridor connects the City of Hastings to downtown St. Paul through southern Washington County.

The Red Rock Corridor Commission, consisting of Washington and Ramsey counties and communities in the corridor including Hastings, is charged with the planning and development of transit service and facilities for the corridor.

Following study of several different types of service routes and modes, the commission has designated bus rapid transit as the preferred mode. Current efforts are focusing on routing, station needs, financing and phased service improvements for the area.

For more information, go to the Red Rock Corridor website↗.
